IBM i2 Analyst Notebook requires the Microsoft .Net Framework 3.5. If the .Net Framework is not installed, or if you do not know if it is installed, please follow these [instructions from Microsoft](#).

Once downloaded, open the file and run the Setup program. If the download does not automatically open with Windows File Explorer, you may need to extract the contents before you can run the install.

Simply accept the license agreement and follow the defaults during the install.

Once the install completes, you will find  IBM i2 Analyst's Notebook added to the Start menu.

If you have any difficulty downloading or installing Analyst Notebook, please contact [cise-it@jmu.edu](mailto:cise-it@jmu.edu).
